

# TENT SLIDE AISLE CLIMBING COMBINED INSTALLATION STEPS

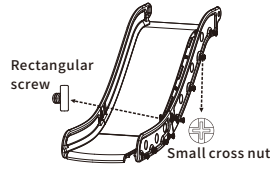

## TENT SLIDE AISLE CLIMBING COMBINATION INSTALLATION STEPS

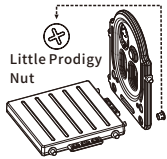

**1** Buffer plate and slideway assembly

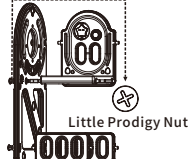

**2** Install the handrail on one side of the slide

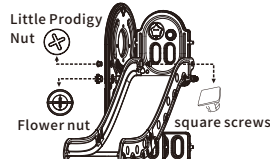

**3** Fix the other side of the slide rail

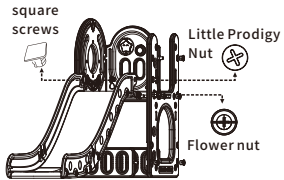

**4** 2-ear platform and star baffle assembly

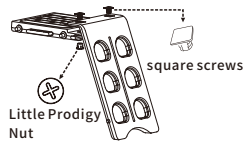

**5** Assemble the assembled platform and three-hole baffle with the large side plate

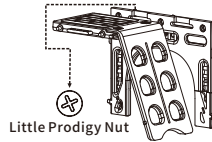

**6** Fix the assembled slide to the large side panel

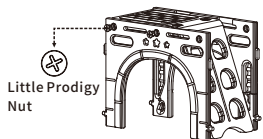

**7** Install the U-shaped side panel on the other side

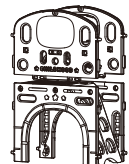

**8** Aisle platform and climbing assembly and tightening the little prodigy nut

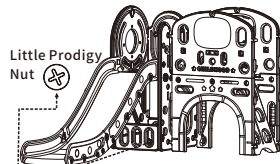

**9** Climbing and fixing the assembled aisle platform strap to the U-shaped side panel of the aisle

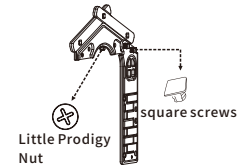

**10** Use small prodigy nuts to fix the U-shaped side panel of the aisle on the other side

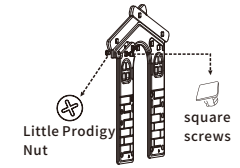

**11** Insert aisle side panels

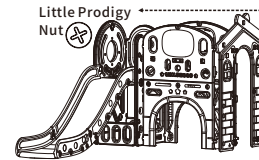

**12** Connect the assembled aisle to the U-shaped side panel of the slide

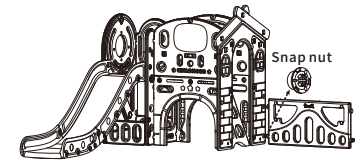

**13** Assemble side B of the vertical board with windows to the roof

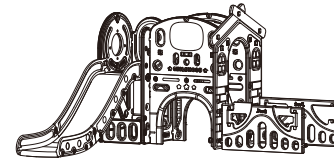

**14** Assemble side A of another vertical panel with windows to the other side of the roof

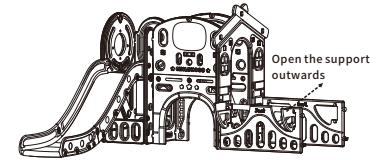

**15** Fix the assembled window riser A/B sides to the other side of the aisle

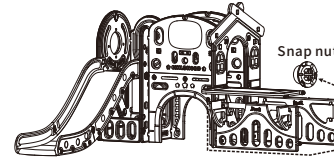

**16** Use bayonet nuts to fix the horizontal plate under the table to surface B of the vertical plate with window.

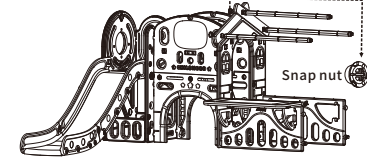

**17** Assemble the horizontal plate under the table with two supports and the vertical plate with window A side

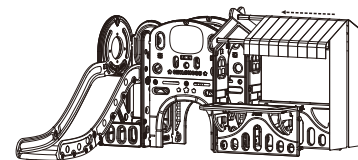

**18** Open the two supports of the horizontal board under the table outwards

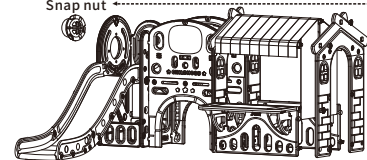

**19** Place the desktop on the two supports and tighten the bayonet nuts

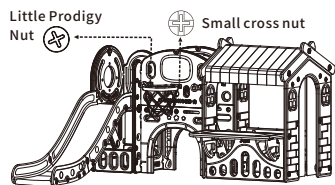

**20** Insert the roof support rod into the corresponding hole in the roof

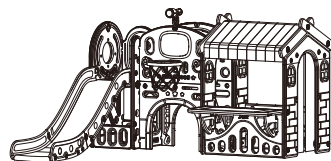

**21** Put the tent fabric on the roof support poles

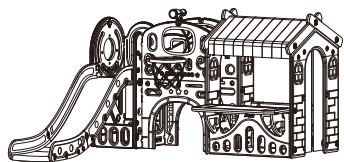

**22** Fix side A/B of window riser to other side

- 23 Install the nose, basketball hoop, and hang the ferrules and basketball net

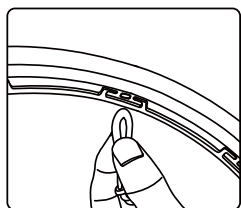

- 24 Snap the telescope into the corresponding position in the aisle

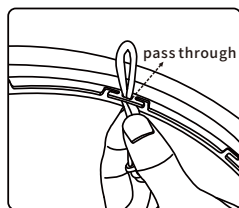

- 25 Attach the sticker and the installation is complete

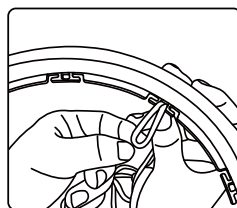

## BASKETBALL NET INSTALLATION STEPS

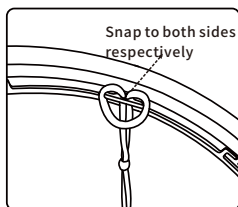

- 1 Pick up one end of the basketball net

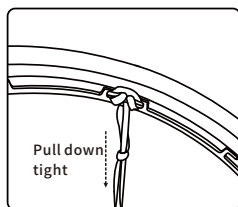

- 2 Pass the basketball net through the middle of the basketball hoop hanging hole

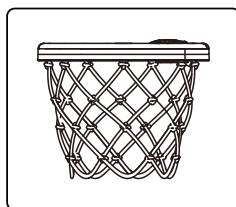

- 3 Reserve enough passed parts to facilitate subsequent operations

- 4 Snap the basketball net into the grooves on both sides of the hanging hole

- 5 Tighten the basketball net downwards so that the ropes passing through the hanging holes form a double knot.

- 6 Use the same method to hang basketball nets in other directions to the corresponding holes.

## TENT SLIDE AISLE CLIMBING COMBINATION ACCESSORIES LIST

- 1 Buffer plate\*1

- 2 Slide\*1

- 3 Slide handrails\*2 each

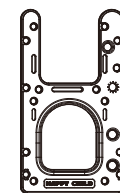

- 4 2-ear platform\*1

- 5 Folding basketball hoop\*1

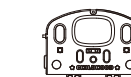

- 6 Large side panel\*1

- 7 U-shaped side panel\*1

- 8 Aisle platform\*1

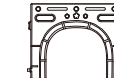

- 9 Aisle side panel\*2

- 10 Stickers\*1 set

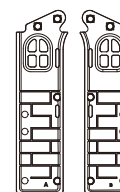

- 11 Star bezel\*1

- 12 Aisle U-shaped side panel\*2

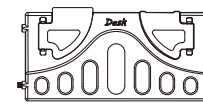

- 13 Climbing\*1

- 14 Side A/B of vertical board with window\*2 each

- 15 House roof\*2

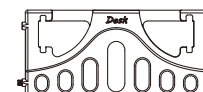

- 16 Horizontal board under the table with two supports\*1

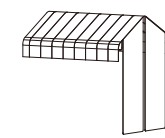

- 17 Roof support rod\*3

- 18 Desktop\*1

- 19 Under table horizontal panel\*1

- 20 Tent cloth\*1

- 21 Basketball\*1

- 22 Basketball net\*1

- 23 Three-hole baffle\*2

- 24 Telescope\*1

- 25 Nose\*2

- 26 Ferrule\*4

- 27 Screw\*1

- 28 Small cross nut\*20

- 29 Little Prodigy Nut\*37

- 30 Flower nut\*2

- 31 Square screws\*10

- 32 Rectangular screw\*2

- 33 Anti-slip sheet\*2

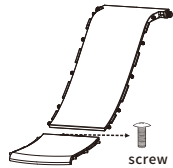

- 34 Snap nut\*12

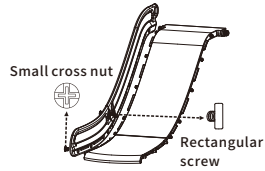

- 35 Plastic screwdriver\*1
